Job Journey Guide

How one job moves from setup to offer, step by step

Who does what, where they click and what happens next

Example job	Backend Engineer
Rounds	Screening (Remote) → Focus Group (Onsite) → Offer
Roles	Admin, Interviewer, Candidate

The journey at a glance

Phase	Steps	Main role
1. Preparation (one time)	1 - 3	Admin, Interviewer
2. Candidates arrive	4 - 5	Candidate, Admin
3. Slots and booking	6 - 8	Admin, Candidate, Interviewer
4. Interview and scorecard	9 - 10	Interviewer
5. Decision	11 - 12	Admin
6. Focus Group and Offer	13 - 14	All roles

Status: the features described here are built and pass the build and unit tests, but the full flow has not yet been run end to end against a real database. Treat this guide as the intended behaviour until that verification is done.

Phase 1 - Preparation (Admin, one time)

Step 1. Create an interviewer

WHO: Admin

- Log in at **/admin/login**.
- In the left menu click **Interviewers**, then **Add interviewer**.
- Enter name, email and department, then click **Add and send invite**.
- The interviewer receives an email. You never set or share their password; they choose it themselves.

Step 2. Create the job

WHO: Admin

- In the left menu go to **Jobs** and create a new job.
- Fill in the general details (title, company, dates and so on).
- In the **Hiring rounds** section, set up each round:
- **Screening:** choose Required or Optional. Choose Remote and add the meeting link. Duration 30 minutes, gap 10 minutes.
- **Focus Group:** choose Onsite and enter the location. Duration 60 minutes. Set "Interviewers per session" to 2 and "Candidates per session" to 8.
- **Offer:** always the last round and always required.
- For each interview round, tick the people under **"Interviewers who can run this round"**.
- Save the job.

Step 3. The interviewer shares their availability

WHO: Interviewer

- Set a password using the link in the invitation email, then log in at **/login**.
- Open **Availability** from the left menu.
- Click **Add hours** next to each day (for example Monday to Friday, 10:00 to 13:00). Use **Add a date** for a specific extra day and **Time off** for leave.
- Click **Save availability** at the bottom.

> Until interviewers save their availability, the admin cannot create slots.

Phase 2 - Candidates arrive

Step 4. The candidate applies

WHO: Candidate

- Finds the job on the site, logs in or registers, and clicks **Apply**.
- The application now appears for the admin under **Needs Review**.

Step 5. The admin shortlists

WHO: Admin

- Go to **Jobs** → the job → click the **Screening** round.
- Each round has four tabs: **Needs Review | In Round | Schedule | Results**.
- In **Needs Review**, tick the applicants to move forward and click **Shortlist**; tick the others and click **Reject**.
- Once shortlisted, the candidate is admitted to the round and can book an interview.

Phase 3 - Slots and booking

Step 6. The admin publishes slots

WHO: Admin

- In the same round, open the **Schedule** tab.
- Under "Publish interview slots", choose the **From** and **To** dates (for example the next two weeks).
- Click **Preview**. It shows how many slots, how many interviewers and how many candidates can be seated. If a warning appears (for example "Ali has not set availability"), fix it first.
- Click **Publish**.
- Shortlisted candidates who are waiting automatically receive an email and an in-app notification.

Step 7. The candidate books a slot

WHO: Candidate

- Log in, open the profile menu (top right) → **My applications**, and open the application.
- The **"Book your Screening Interview"** card is shown.
- Pick a day, pick a time, click **Continue**, then **Confirm booking**.
- After booking, the card shows the date, time, a **Join online** link, a countdown and an **Add to calendar** button.
- A confirmation email with a calendar invite is also sent.

> To change the time, the candidate must contact the recruitment team. Candidates cannot change bookings themselves.

Step 8. The interviewer is notified

WHO: Interviewer

- Receives an email, a bell notification and a calendar invite.
- Reminders arrive 24 hours and 1 hour before the interview.

Phase 4 - Interview and scorecard

Step 9. The interview takes place

WHO: Candidate, Interviewer

- At the scheduled time the candidate joins through **Join online**, and the interviewer uses the same link.
- The admin does not need to do anything. If the candidate does not show up, the admin clicks **No-show** in the Schedule tab.

Step 10. The interviewer fills in the scorecard

WHO: Interviewer

- Go to **My interviews** and click the candidate.
- The scorecard opens 15 minutes before the interview starts.
- Screening: rate 12 criteria with sliders. Focus Group: rate each behaviour from 1 to 4.
- Choose **Recommend** or **Do not recommend**, add comments and click **Submit scorecard**.
- Drafts save automatically. A submitted scorecard cannot be changed.
- On a panel of three interviewers, each one submits their own scorecard.
- When all scorecards are in, the candidate becomes **Ready for decision** and the admin is notified.

Phase 5 - Decision

Step 11. The admin decides

WHO: Admin

- Open the round's **Results** tab.
- Each candidate shows the average score and the recommendation. If the interviewers' votes are tied, "Split decision" is shown.
- Tick the candidates who passed and click **Move to Next Round**. Tick those who did not and click **Reject selected**.

> Remember: in the next round the candidate lands in Needs Review again. The admin must click Shortlist there before the candidate can book for that round.

Step 12. If the round is optional

WHO: Admin

- The Schedule tab has a **Waiting to book** list.
- Click **Skip round** next to any candidate who should not take this round. They move straight to the next round.

Phase 6 - Focus Group and Offer

Step 13. Focus Group

WHO: All roles

- Works the same way as Screening, with these differences:
- Each session has 2 to 3 interviewers and up to 8 candidates.
- Every interviewer submits a separate scorecard.
- At the end, the admin decides on the Results tab.

Step 14. Offer

WHO: Admin, Candidate

- In the final round, the admin uses the existing Letter of Intent and offer letter flow.
- The candidate sees the offer on their application page.

What each role does, in plain words

Role	What they do	What they cannot do
Admin	Creates interviewers, sets up the job and its rounds, shortlists candidates, publishes slots, reschedules or cancels bookings, and decides based on the scores.	Does not fill in scorecards (that is the interviewer's job).
Interviewer	Shares their free time, sees their own interviews, and fills in scorecards.	Does not create slots, does not shortlist or reject candidates, and only sees interviews assigned to them.
Candidate	Applies, books a slot, and follows the status of their application.	Cannot change or cancel a booking, and does not see their score.

Five things to remember

1. **Order matters:** create the interviewer → tick them in the job's interviewer pool → the interviewer sets availability → then publish slots.
2. A candidate can book only after they are **shortlisted** and slots have been **published**.
3. Each seat in a slot goes to one person only. Two people can never take the same seat.
4. The interviewer does not decide; they only give a score and a recommendation. Moving a candidate forward or rejecting them is always the admin's job.
5. To change a time, it is always the admin: **Schedule tab** → **Reschedule or Cancel** next to the booking.

Candidate status, start to finish

Applied → Shortlisted (admin) → Awaiting booking → Scheduled → Awaiting feedback → Ready for decision → Decided (admin)

The admin counters, the interviewer's tabs and the candidate's card all use these same states.
